

Chelsea Kerbs

Chelsea Kerbs in Charcoal

Picture perfect... ...creating features

Create the perfect drive or garden with those key finishing touches... be it inviting steps to your door, a welcoming porch way or vibrant bedded features. Our Chelsea Kerbs have a handsome tumbled effect as seen in our Chelsea 50 and Chelsea 60 (Page 8 and 10), just the thing to add interest to your home. Furthermore, you can combine with our full range of kerbs (Page 30) to create individual rooms in your garden allowing you to move faultlessly from your child's play area through to your organic vegetable plot without breaking the mood or overall ambience of your garden.
