

Cloaked Verge System

The Russell Cloaked Verge System is designed to provide a mechanical dry, durable mortarless finish to the verge.

- Eliminates the need for mortar bedding and pointing.
- Components comply with BS EN 490 & 491 : 1994, BS 5534 : and BS 8000 :
- Maintenance free.
- Fast installation in all weather conditions.
- Attractive, neat uniform finish to the verge.
- Purpose made half tiles provide flexibility to allow setting out.
- Block End Ridges (either Universal Angle or Half Round) provide a neat weatherproof finish at the apex.
- Are available in colours and finishes to match Derwent, Double Roman and Pennine profiles to assist in setting out.
- Cloak Verge tiles are compatible for use with Russell Dry Fix Ridge Systems.
