

# DURABLE SURFACING FOR DRIVEWAYS

**You will never have a better looking driveway! If you are looking for a great finish and a tough surface for your driveway or carpark, then we have a VIADRIIVE® solution to suit you.**

VIADRIIVE® has been designed to provide a durable and aesthetically pleasing surface which resists the effects of power assisted steering and deformation, keeping a high end premium finish on your drive for years to come.

Once installed the surface finish requires minimum maintenance due to its specially designed tight interlocking structure.

Available throughout our entire network of plants (including Local Asphalt) in 6mm and 10mm nominal aggregate size, it can also be used as a surface course for residential streets where an enhanced noise reduction is desired.

## BENEFITS:

- Highly durable surface finish
- Resistant to surface scuffing
- Resistant to deformation
- Resistant to softening in hot weather
- Excellent noise reduction

VIADRIIVE® contains a blend of carefully selected high quality aggregate, and a harder bitumen grade chosen in order to reduce softening during warmer weather.

VIADRIIVE® can be installed either via asphalt pavers or by hand. It is recommended that VIADRIIVE® installation guide is followed in order to provide the optimum durability.

Further guidance for maintenance of household driveways can be obtained from the VIADRIIVE® maintenance guide on our website.

Why not tap into our wealth of experience and expertise? CEMEX technical department are always on hand to discuss specific requirements with you.

## APPLICATIONS:

HOUSEHOLD DRIVEWAYS

CAR PARKING AREAS

RESIDENTIAL STREETS

Also available with our eco enhancements;

Low temperature

or  
Enhanced workability
