

READYBLOCK[®] VOID PACKS

Cemex's range of ReadyBlock and ReadyBrick concrete products are delivered in voided packs. Void packs eliminate the need for timber pallets presenting our customer with a multitude of solutions as well as environmental benefits.

Over 100 tonnes of timber – roughly the equivalent of 100 ten foot high oak trees – was saved in 2021.

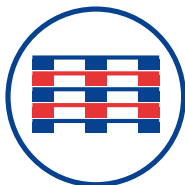

ReadyBlock Void Packs are now available at both our Buxton and Northfleet Plants.
